

## **DESCRIPTION: A FEAST FOR ALL PEOPLES**

A “feast for all peoples” is an international art project which will culminate in a exhibition of ceramic plates representing every nation in the world. The dishes will be hand made from clay and decorated with text and imagery from every country. We are looking for a representative from each nation to participate in the project. There will be a few simple questions that participants will respond to in their own language and handwriting. The responses will be mailed to us and will then be transferred through a silk screen printing process onto the surface of a ceramic plate.

Please let us know if you would like to participate or know someone who might be interested.
